### STATE TREASURY IS ON CASH BASIS AGAIN

By News' Special Service

OKLAHOMA CITY, Aug. 19.—State Treasurer A. N. Leecraft yesterday issued a call for \$50,000 worth of outstanding warrants on the 1920 general revenue fund, which marks the return of the state to cash basis.

State Auditor Frank Carter yesterday transferred \$400,000 collected from gross production tax, making it immediately available to pay current claims.

According to Mr. Leecraft, the new surplus of \$350,000 which will remain after the payment of the outstanding warrants, will insure the state's having ample funds to meet all warrants during the balance of the year.

The call announced that the state will cease paying interest on the outstanding warrants August 29.

According to the books of the treasurer, there was \$7,044,233.37 on hand when Mr. Leecraft took office January 13, 1919. Since that time there has been deposited \$24,118,547 and warrants issued for \$15,771,229, leaving a balance of \$9,115,673, a gain of more than two millions of dollars in six months.

Mr. Leecraft says there always

has been plenty of money in the treasury, but that the state was unable to meet the warrants until the tax monies came in.

### WILSON MEETS WITH SENATORS

IN CONFERENCE TODAY WITH FOREIGN RELATIONS COMMITTEE ON THE LEAGUE OF NATIONS.

By the Associated Press

WASHINGTON, Aug. 19.—President Wilson told the foreign relations committee at the outset of the White House conference today that he could see no "reasonable objection" to interpretations of how the United States accepts the League of Nations, provided such interpretations did not form a part of the formal ratification itself.

If the latter were the case, the president said that long delays would follow, as other governments would have to accept the language of the senate if the ratification is to be complete.

The much discussed article ten, the president said, was not doubtful when read in connection with the whole covenant. The council, he said, could only advise, and its action must be unanimous. An affirmative vote of the United States would be necessary for any question affecting it.

"In short, if I am any judge,

the people of the middle and southwest desire to put the abnormal war conditions behind them as rapidly as possible, resume pre-war conditions and take up their tasks anew, and any delay or long drawn out debate in the senate over the peace treaty will be disadvantageous to them, as it will be unprofitable to the country at large.

"I see that it has been asserted by republicans now in control of both branches of congress that the

### Tank Factory at Healdton Burned

By News' Special Service

ARDMORE, Okla., Aug. 18.—Fire of unknown origin Sunday morning totally destroyed the plant of Black, Sivalls & Bryson, tank builders, at Healdton.

Approximate estimates place the loss at between \$150,000 and \$200,000. The firm is one of the largest tank building concerns in the Southern Oklahoma oil area. The plant will be immediately rebuilt.

TEXAS GUARD ORDERED READY FOR SERVICE

By the Associated Press

AUSTIN, Tex., Aug. 19.—Governor Hobby today ordered the Texas National Guard prepared to respond to an emergency call for border service.

### WISCONSIN AIDS DISABLED MEN

INSTRUCTS LARGE CLASS OF DISABLED VETERANS OF THE LATE WAR AT UNIVERSITY.

By the Associated Press

MADISON, WIS., Aug. 19.—With 70 disabled soldiers now enrolled in the summer school of the University of Wisconsin, preparations are being made to instruct a much larger number of the same class of students this fall. The disabled veterans are studying under the auspices of the federal board of vocational training, about half expecting to stay for a year's work if their progress and physical fitness warrant while the others will receive two or four years' training.

Ninety nine of the soldiers are residents of this state, 19 of Illinois, 2 of Mississippi and one each from Indiana, Texas and Missouri. Others give various addresses, one being a Russian and one a Frenchman.

The Russian is Lou Lazar Resenkov, recently discharged from the 149th field artillery, Rainbow division.

When the war interrupted his studies at the University of Petrograd he was drafted into the Russian army and sent to the front.

Later he was tried for treason and sent to Siberia whence his mother, with a dead man's pass and bribes, enabled him to escape to New York.

He became a dancer in vaudeville and while playing at Danville, Ill., heard that his two brothers had been killed in the Russian revolution and enlisted to avenge their death.

He saw 10 months service in France during which he was gassed and wounded.

Now he is completing his course in electrical engineering he started in Petrograd.

M. Rene Guier of Rennes, France, fought through the first two years of the war as a "simple soldier,"

was sent to the St. Cyr military academy at Paris for a year's training and was seriously wounded after his return to active service as a second lieutenant.

As a reward for his services the French government granted him a travelling fellowship

for study in America. He spent the last college year at the University of Illinois and is now pursuing studies in English and history there.

Nearly half of the veterans now

studying at the University have finished the eighth grade, 17 have completed high school and 11 have some college work. Far industries interest the majority of them,

with 37 studying various phases of this subject, while 13 are studying mechanical industries, 8 are in commercial work, 2 in medicine, 2 in journalism, one in law, and one in pharmacy. Special instruction in chemistry and mathematics have been arranged for those who need it and special tutoring in English is being considered.

Dr. M. M. Morrison returned this morning from Elk City where he has been with his brother, J. W. Morrison, who has been quite ill, but was improving when Dr. Morrison left him.

### FERRIS OPPOSES ANY CLASS DISCRIMINATION

By News' Special Service

WASHINGTON, Aug. 18.—Representative Scott Ferris of Oklahoma appeared before the house committee debating the high cost of living today and demanded that if producers are to be regulated all classes should be controlled in a corresponding manner.

Mr. Ferris insisted that to do otherwise would amount to a minimization of production and the depopulation of the farms of the country. Such an outward action would play into the hands of the profiteers and the singling out of farmers would do positive harm in the present situation, according to the Oklahoma congressman.

### WEATHER FORECAST

Partly cloudy tonight and tomorrow. Showers in the extreme west portion of state.

AMERICAN CAPTAIN OUTWITS MEXICAN BANDITS AND RESCUES AVIATORS BY PAYING HALF PRICE.

By the Associated Press

MARFA, Tex., Aug. 19.—Lieuts. Harold G. Peterson and Paul H. Davis, American army aviators held captive for over a week when their plane forced them to land near Candelaria, Tex., by Mexican bandits who demanded fifteen thousand dollars ransom, were rescued early this morning by Captain Matlock of the Eighth cavalry, and are safe in American territory.

Capt. Matlock brought back with him half of the money, outwitting the bandits. Davis was brought forward after Peterson had been released and half of the money paid over. He mounted Matlock's horse with him and when the bandits demanded the remainder of the money, Matlock and Davis answered by riding away. Captain Matlock said the bandits were all well mounted.

CANDELARIA, Tex., (via Field Telephone to Marfa). Aug. 19.—Troops of the eighth cavalry crossed the Mexican border at 6:40 o'clock this morning in pursuit of bandits who held aviators Peterson and Davis for ransom. Peterson and Davis accompanied the expedition, acting as guides. Aviators are cooperating with troops to locate the bandits on the Mexican side, flying over the Ojinaga district south of Candelaria.

NEGROES MAY NOW COME BACK SOUTH

EMPLOYERS OF THE SOUTH WILLING TO PROVIDE FOR THE SOUTHERN BORN NEGROES.

By the Associated Press

MEMPHIS, Tenn., Aug. 19.—Plenty of farm and mill work, better wages than ever before paid and improved living conditions await Southern negroes who have gone to the north and who now are said to be clamoring to return to the South, according to employers here.

Southern farmers and plantation owners want the southern negroes back. If there were some method of getting in touch with them it is declared the expense of their return to Dixie would be willingly borne.

This will hold especially true for the next few weeks, because there

is need of negroes who know how

to take care of the cotton crop.

But these employers say they do not want northern-born and reared negroes. They would prefer to bring in foreign labor, they assert.

"We would not hesitate to pay

the expenses of hundred or more negroes, particularly negroes who have gone from Mississippi, Arkansas and Tennessee," said A. C.

Lange, vice president and general manager of the Chicago Mill &

Lumber Company, which owns more

than 70,000 acres of timber and

agricultural lands in Northeastern

Arkansas. "I think it is safe to say

that every southern negro in the

north would be brought back without expense to him if southern

farmers and plantation owners

knew where and how to get in touch

with the southern-born. We don't

want and will not have northern

negroes."

The question of how to get in touch with negroes who have gone north was discussed at the Memphis meeting of the Southern Alluvial Land Association several days ago and the subject will be a special

order of business at the next meeting.

The Association is an organization

of bankers, land owners,

chamber of commerce, planters and

lumbermen of the lower Mississippi

Valley formed to serve, in a measure,

the same purposes for the delta

country as the chamber of commerce serves the town or city. At

the last meeting it was said that

there is great need for more la-

bor in the lower Mississippi Valley

and especially for negro labor ac-

quainted with southern agricultural

methods and with cotton growing

and handling.

### GOVERNORS BUSY IN SALT LAKE CITY

CRIEVE EXECUTIVES FROM ALL WESTERN STATES, AND MANY OTHERS, ARE IN ATTENDANCE.

By the Associated Press

SALT LAKE CITY, Aug. 19.—Problems effecting state government were to be thoroughly threshed out today at the opening business session of the annual Governors' Conference, which convened here last night. Chief executives from all western states and many eastern and middle western commonwealths, were in attendance.

Capt. Matlock brought back with him half of the money, outwitting the bandits. Davis was brought forward after Peterson had been released and half of the money paid over.

He mounted Matlock's horse with him and when the bandits demanded the remainder of the money, Matlock and Davis answered by riding away.

Captain Matlock said the bandits were all well mounted.

GOVERNORS BUSY IN SALT LAKE CITY

EMPLOYERS OF THE SOUTH WILLING TO PROVIDE FOR THE SOUTHERN BORN NEGROES.

By the Associated Press

BUFFALO, N. Y., Aug. 18.—With a pitched battle between strike breakers and strike sympathizers of the New York and Pennsylvania traction company at Olean, N. Y., still raging, fifteen men had been shot at 10 o'clock tonight and three had been beaten so badly as to endanger their lives.

Of the men shot in the fusillade of buckshot fired by the strike breakers in an attempt to drive away the mob, several may

die.

Lawrence Page, a college student,

son of William R. Page, president

of the traction company, was beaten so badly that he cannot live.

Joseph Pergianni, a taxi driver,

mistaken by the mob for a strike breaker, and Douglas Denning, said to be

spectator, were shot and are not

expected to live.

ALTUS ICE DEALER HELD AS PROFITEER

By the Associated Press

ALTUS, Okla., Aug. 18.—The first blow was struck yesterday in Jackson county against the high cost of living when State's Attorney Pelly issued a warrant for the arrest of D. M. Johnson, president of the Altus Ice & Fuel company.

Parties from Olathe visited the

local ice plant and said Johnson re-

fused to sell them ice in ton lots at

his advertised rate of \$1 a block of

300 pounds, stating that they

could have the ice for \$2.10 a block,

which is his retail price of 70 cents

per hundred. Complaint was made

to the state's attorney and the war-

rant issued and Johnson made

bond for his appearance in court.

Almost universal dissatisfaction ex-

ists here because of the high prices charged.

The chamber of commerce has learned from an investi-

gation that citizens of Altus pay

more for ice than any other town</p

# FREELING SHOWS FIGHT AT START

SENATORIAL NOMINATION ASPIRANT TO SUCCEED GORE ANNOUNCES PURPOSES OF CAMPAIGN.

By News' Special Service

OKLAHOMA CITY, Aug. 19.—S. P. Freelng, attorney general, and an avowed candidate for the democratic nomination for United States senator, has thrown down the gauntlet, having issued a formal and general challenge to "all other aspirants" to a series of joint debates. General Freelng makes his challenge as wide and as broad as English can tell it, but briefly it is "at any time, at any place, with any and all other candidates."

"I feel that the public is entitled to know all the claims and promises of all the aspirants," said General Freelng. "I think, also, that every aspirant should have a fair and equal chance to answer to whatever may be said about him by any and all the other candidates. It seems to me that if we all get together, give the public the fullest opportunity to judge our positions that it will save many misunderstandings and that those who are to make the final decision, the voters themselves, will, through a series of joint debates, have the best opportunity to decide where their votes should be placed."

"I have not discussed this matter with any of the other three aspirants to this important and honored position. I am proposing it to them and to the public. I take it as a matter of course that the public will want to know honestly what each of the candidates has to say for himself and about the others. It would hardly be reasonable to suppose that the voters can make up their minds for whom they want to cast their votes until they have heard what each has to say. It seems to me that my suggestion is a fair one. The proposal for a series of joint discussions, rather than a challenge for debates, will be formally directed to each of the other aspirants. If they see fit to follow the suggestion I believe the best interests of all will be served."

In any event I certainly intend to stump the state. In fact, I expect, although it is not a formal matter, that my first public, verbal statement will be made at Marietta, in Love county, tomorrow."

Attorney General Freelng has the reputation of being one of the most forceful speakers in the state. His formal announcement carried the information that he intends to stump the state. The suggestion for joint debates, with all the aspirants participating, will probably meet favor with all concerned.

## STILL FIND NO CAUSE FOR AGENT'S SUICIDE

By News' Special Service

TULSA, Okla., Aug. 19.—No solution has been found to the mystery surrounding the cause of the suicide of Lawrence B. Washington, Frisco ticket agent, who took his life by firing three bullets into his body shortly after 1 o'clock Saturday afternoon in Central Park.

Friends and fellow employees of Washington are entirely at a loss to explain his action, owing to the fact that he was always in the best of spirits and had shown no signs of despondency prior to his taking his own life.

The body of the dead man was shipped to Memphis, Tenn., for burial at 12:50 Sunday by the Mowbray Undertaking company. Washington was survived by his wife, Mrs. Ruth Washington, who lives at the Melrose apartments. Mr. Washington had been the ticket agent here for more than a year and had been in the employ of the railroad for about twenty years.

## NEW CABINET NEEDED SAYS MEXICAN PAPER

By News' Special Service

LAREDO, Texas, Aug. 19.—Mexico faces the danger of foreign intervention and the present Mexican cabinet must be replaced by one which enjoys esteem within and without the country, according to El Universal of Mexico City under date of August 14.

"Public opinion shows the necessity for a change in the present government," the paper continues.

After publishing in full the note sent by the American state department to the Mexican government warning that outrages against American citizens in Mexico must cease, El Universal declares the policy of the present Mexican government as an obstacle in the relation with foreign governments.

In an editorial under the caption of "The Gravity of the Moment," the paper counsels a policy of expediency.

"The petroleum problem will be solved early in September when the ordinary session of congress begins," the editorial reads, "and all interests in that industry will be respected."

## The Episcopal Bride Will No Longer Have to Promise to "Obey" Hubby

NEW YORK, Aug. 18.—Radical changes in the sanctioned practices of the Episcopal church are provided for in a report made public here of the church's commission on the revision and enrichment of the book of common prayer to be submitted to the general convention of the church in October.

The report makes provision for faith healing, anointing with holy oils, requiem communions and prayers for the dead, reservation of the sacrament and instinct—the use of a dipped wafer instead of the common communion cup. There are a score of radical proposals and bitter controversy is looked for over them on the convention floor.

The recommendations for changes in the church practices include:

Elimination from the marriage ceremony of the word "obey" for the bride and "with all my worldly goods I thee endow" for the groom.

A prayer for the dead.

Change Whitsunday to the Day of Pentecost, and all Sundays from then until Advent to read as Sundays after Pentecost. Abbreviation of the ten commandments for the option of the clergy (their language not altered) but certain explanatory or opposite statements eliminated.

Altar the order for administration of the Lord's supper in its designation to read:

"The divine liturgy, being the order for the Lord's supper or holy eucharist commonly called the holy communion."

New prayers for the president of the United States and the army and navy.

Prayers "For social justice" and "For every man in his work."

A special office for Independence day.

Proposed new service for the admission of deaconesses.

To Repair Book Covers. Beautiful books are generally bound with leather, and if they are in constant use the calf or morocco soon becomes worn. To remedy this, use equal quantities of white of egg and water beaten together, apply with a soft brush or piece of flannel, and when thoroughly dry polish with a fresh piece of flannel.

To Purify and Enrich the Blood. Take GROVE'S TASTELESS Chill TONIC which is simply IRON and QUININE suspended in Syrup. So Pleasant Even Children Like It. You can soon feel its Strengthening, Invigorating Effect. Price 60c.

**APPOINTMENTS**  
Many of our patrons think it's all right just to drop in most any time for a sitting without an appointment. But it's not all right. We're long past that age now, and ask you to make an engagement for sitting, always.

## MAKE THE PENNIES BIGGER

When James Buchanan was president and tall beaver hats were in vogue; when gentlemen wore broad cravats and ladies wore hoop skirts the pennies they tossed to children were as big as quarters. But the cart-wheel coppers your grandfather got for keeping his lace collar clean were not as big in buying power as the pennies of today.

A penny then might buy a pastry, or ten of them take one to the Fair, but your great-aunt and great uncle couldn't have gone to a movie at any price.

Your great-gran'ther may have driven the fastest horse in the country and paid a tidy sum for it. But the price of a stable of thoroughbreds would not have bought him a flivver.

Sixty years ago the ladies could go shopping for dry goods and buy silks that would make you green with envy, linens that were linens and broadcloths that beggar description. But what their favorite store did not have they usually got along without.

You can pick up your daily newspaper and in fifteen minutes you can know what the different shops are offering in fabrics, patterns, varieties and qualities that great-grandmother never dreamed could be gathered together under any conditions.

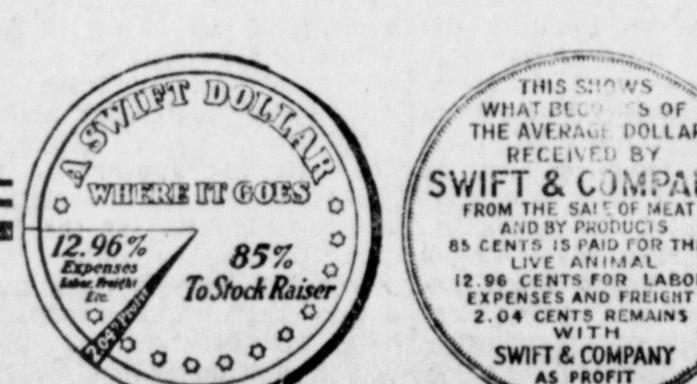

Times have changed, and so have merchandise and business methods. One of the influences that has helped to bring about so much of change, that has helped to multiply opportunities and increased the spending size of our pennies is advertising.

Every merchant, every manufacturer knows that advertising materially reduces selling costs by increasing the demand for and the distribution of the products of hundreds of thousands of mills. Indeed many of the things we count today as necessities or simple luxuries could not be made and sold at their reasonable prices except as advertising has created a broad market for them, making millions of sales at little prices and little profits.

And so you owe very much to advertising. You owe much to the people of yesterday who have read and been influenced by past advertising and so have made possible the economies and varieties and wide distribution of merchandise that you enjoy.

You owe present advertising a thorough reading. A greater familiarity with advertising, with advertisers and advertised merchandise makes continually for the increasing size of your pennies.

## THE TOWN GOSSIP

By MILTON LESTER

YESTERDAY AFTERNOON.  
I WENT home.  
KIND OF early.  
AND WENT out.  
INTO THE garden.  
TO CLEAN up.  
OUR TOMATO vines.  
AND FOUND a whole bunch.  
OF ROTTEN tomatoes.  
AND WAS hard at work.  
WHEN I happened to notice.  
A BIG grey cat.  
WALKING ON a fence.  
HALF A block away.  
AND I picked out.  
A REAL juicy tomato.  
AND LET fly.  
AND MISSED the cat.  
AND THE tomato kept on going.  
OVER A high fence.  
AND I heard a woman's voice.  
SUDDENLY SCREAM out:  
"OM MY Gawd!"  
AND I couldn't see her.  
BUT JUST the same.  
MY HEART went up.

INTO MY mouth.  
AND THE next thing.  
I HEARD her yell:  
"WHERE IS that young un?"  
AND IN a minute.  
I HEARD a kid screaming:  
"I DIDN'T do it, Mother."  
"I AIN'T had."  
"NARY A tomato."  
"HONEST TO goodness."  
"I DIDN'T hit you with it."  
AND FOR the next minute or so.  
THERE WAS some lusty yelling.  
AND I quit work.  
AND QUIETLY went back.  
INTO THE house.  
AND BEGAN to read.  
AND COULDNT get interested.  
AND MY conscience hurt.  
AND I felt mean.  
AND IF I only knew.  
WHAT THAT kid's name was.  
I'D SEND him a dollar.  
OR AN air rifle.  
OR SOMETHING or other.  
I THANK you.

## Locomotive Firemen Now Demand Increased Wage for 117,000 of Their Men

By News' Special Service

CLEVELAND, Ohio, Aug. 18.—A 35 to 65 per cent increase in wages is demanded for 117,000 firemen and hostlers on railroads in the United States and Canada in a wage scale adopted before adjournment yesterday by 300 general chairmen of the Brotherhood of Locomotive Firemen and Enginemen in session here since Tuesday.

Another demand to be presented to the director of railroads is that all coal burning locomotives in road service weighing 200,000 pounds and over shall be equipped with mechanical stokers and that two firemen shall be employed on all such locomotives until they are so equipped.

About half of the 80,000 engines in the United States will come under this proposal, only about 5,000 of which are equipped with mechanical stokers at present.

In accepting the report of the wage committee, some modifications were made but the report was adopted in the main part.

The more important sections of the report follows:

Rate of pay for firemen and helpers in passenger service, \$6.50 per day of 100 miles or less except when Mallet engines are used, when \$7.25 shall be paid.

In freight service on engines weighing less than 200,000 pounds, firemen shall be paid \$6.50 and on engines weighing over 200,000 pounds, \$6.80 per day of 100 miles or less, overtime to be computed on present basis at a speed of 12 1-2 miles per hour.

Firemen and helpers employed in local or way freight service, mixed trains, mine runs and other service shall be paid a minimum of 50 cents per 100 miles or less in addition to the through freight rates.

Firemen employed on helper, pusher, transfer work, wreck, construction, snowplow, circus, milk and all other trains in unclassified service shall be paid the through freight rates, according to class of engine used.

Firemen employed on Mallet engines in all service except yard service, shall be paid \$7.20 per day for 100 miles or less.

Firemen and helpers employed in yard service shall be paid \$6.50 per day of eight hours or less except when Mallet engines are used, when rate of \$6.80 shall be paid.

A demand for time and one-half for overtime in all classes of service is made which will apply when men are used on Sundays or holidays.

Inside hostlers shall be paid \$6.80 per day and outside hostlers \$7.20 per day and hostlers' helpers \$6.50 per day, eight hours or less to constitute a day's work.

All time work in excess of eight hours to be paid at rate of time and one-half.

In addition to the demand that all coal burning locomotives in road service weighing over 200,000 pounds be equipped with mechanical stokers, a demand is made that all coal burning locomotives less than that weight shall be equipped with mechanical coal passers, a mechanical device operated by steam to keep the coal within the reach of the fireman and that all coal burning locomotives shall be equipped

## WEIGHS MORE NOW THAN EVER BEFORE

Mrs. Baily Suffered Nearly All Her Life—Her Health Is Restored By Tanlac.

"Since taking Tanlac I actually weigh more and feel better than I have in years," said Mrs. George W. Baily, of 1339 Glen Place, Memphis, Tenn.

"I had been in poor health nearly all my life," she continued, "I had no appetite, my stomach would bloat up after eating and the gas would press on my heart so I could hardly breathe. I would often have to raise up in bed to catch my breath and I could never get a good night's sleep. I fell off till I weighed only seventy-nine pounds and was so weak I could hardly lift my baby."

"I began to improve with my first bottle of Tanlac and I now feel like a new person. I have a fine appetite and never have a sign of indigestion, gas or those smothering spells. I am doing all my housework now and can't find words to express my gratitude for what Tanlac has done for me."

Tanlac is sold in Ada by Gwin & Mays Drug Co.—Adv.

### MARGAY AND OCELOT

"I've no special reason for being in the zoo that I can see," said the Margay cat.

"I have every reason for being here," said the Ocelot cat.

"Well," said the Margay cat, "I'm a very small cat and I have no greater size to brag about than an ordinary cat behind a kitchen stove. Still I am in the zoo."

"Ordinary cats aren't always behind kitchen stoves," said the Ocelot.

"Most of the time," said the Margay cat, "you will find them there."

"You're an ignorant creature," said the Ocelot.

"And why, pray tell?" asked the Margay cat.

"Because ordinary cats often sit under the trees. They watch for birds. They aren't always under stoves at all. Besides in this hot weather, they're trying to be cool and not hotter."

"Often, too, ordinary cats are looking into garbage tins and getting things to eat—if they find what they want. And, too, ordinary cats are often sitting on beautiful soft cushions in beautiful drawing rooms."

"Beautiful soft cushions and beautiful drawing rooms," snarled the Margay cat. "It's absurd to hear you talk! You have the idea you are very wise."

"I know I'm right. I've heard children talking about cats who came to the zoo," said the Ocelot cat.

"Cats who came to the zoo?" asked the Margay cat.

"No, children who came to the zoo were talking about cats," said the Ocelot cat.

"Then pray say what you mean and express yourself better," said the Margay cat. "Instead of putting the back part of your sentence where the front part should be, and mixing up the words so no one can understand what you mean."

"You're a very cross, snarly nature."

"Ah, I'm a cat, and so are you," said the Margay cat. "You happen to be feeling in a more purring sort of mood than I do, that's all."

"Yes, I wouldn't say you were very pleasant."

"You don't have to say so; I wouldn't waste the time and effort to say so if I were you," said the Margay cat.

"Still, I don't see why I am in the zoo."

"Of course it is true I have fine round spots which are interesting. And they say I am rare and that my very smallness is interesting."

"That's what they say, and so that is why you are in the zoo," said the Ocelot cat. "Now I have a lot of interesting things about me. I come from South America. I'm considered large for my species, or big family, or cousinship, or whatever you want to call it."

"I don't care about calling it anything in particular," said the Margay cat.

"Well," said the Ocelot cat, "I mean what one would call it if one wanted to speak about it."

"I can't imagine who would want to," said the Margay cat.

"Now don't be rude," said the Ocelot cat, snarling.

"Pooh, don't put on such fine and mighty airs," said the Margay cat. "I don't. I'm a modest creature. And you have nothing to boast of. A jaguar would not think anything of eating you."

"He wouldn't think any more of you than a child would of a small piece of cake."

"That's a good deal," snarled the Ocelot, "and no matter what you may say I know I am a handsome, spotted cat, and I think I look like a leopard. I do."

"No one can stop you from thinking, I suppose," said the Margay cat, yawning. "But I must have a nap. I must have my beauty sleep."

"I don't need such a thing," snarled the Ocelot cat, who felt a little cross at the Margay cat.

Now, Don't Be Rude.

## General Seizing of Food Supply in All States Is Planned in H.C. of L. War

### FARMERS ARE FEEDING PEACHES TO THE HOGS

By News' Special Service

WASHINGTON, Aug. 19.—The government's fight to reduce the cost of living is expected to result in action in many states this week to force hoarded food on the market, while congress is debating legislation dealing with the question.

Reports to Attorney General Palmer have indicated that instructions to district attorneys to proceed vigorously in the enforcement of the food control law were being obeyed literally. Instances of the seizure of foodstuffs in St. Louis, Chicago, Kansas City, San Diego and the south, officials here believe will be multiplied in the next few days. Mr. Palmer directing the campaign from Washington, will go to New York tomorrow to confer with the fair price board for that city.

Senate and house agriculture committees probably will report this week—the latter committee probably tomorrow—on amendments to the food control law giving a criminal penalty, which hitherto has been lacking and expanding the law to cover clothing. Cold storage legislation also may be enacted on by the house interstate commerce committee.

Consideration of request by several departments for appropriations to carry on work in reduction of living costs will be inaugurated tomorrow by the house appropriations committee. The senate District of Columbia sub-committee will continue its hearings with a view to framing a "model" legislation for regulation of prices.

Closely akin to the consideration of the living cost question will be hearings to be started tomorrow by the senate interstate commerce committee on the Kenyon-Kendrick bills to license meat packers. W. S. Colver, member of the federal trade commission which has investigated extensively the packing industry, will be the first witness. Leaders in the industry are expected to be heard next week.

Swamp Chill and Fever Tonic WILL BRING YOU QUICK, SURE RELIEF.

For twenty years this famous tonic has been the one effective remedy for malaria, chills, ague, fever, colds, gripe, etc. Thousands swear by it.

It seldom takes over three days to break up malaria chills with Swamp Chill and Fever Tonic. And no purgative has to be taken with it—the medicine itself acts gently and agreeably upon the liver and takes it over other chill tonics.

Swamp Chill Tonic contains no calomel. It is tasteless, and pleasant to take. It is prescribed by leading physicians as the best chill and fever remedy there is. That's because it contains exactly the right ingredients for such ailments.

The skeleton found today is believed to be that of John Woody Dawson Woody, father of the missing youth, identified it by the fillings in the teeth as that of his son.

The skeleton was found buried under about six inches of soil in the livery barn yard. According to Mr. McNeill the evidence indicates that the man had been killed in his sleep and the body apparently without clothing other than a night shirt, buried face down in the shallow grave. The skeleton was found in the yard of a barn formerly operated by Rufus King, who is held on a charge of first degree murder in connection with the disappearance of Rueben Gutshall here five years ago.

A skeleton believed to be that of Gutshall was found recently in a shed on a property formerly occupied by King, who was arrested near Pueblo, Colo. It was stated tonight by Mr. McNeill that Dawson Woody would swear to a complaint tomorrow charging Rufus King with the murder of his son.

This town was the mecca of scores of curious visitors today who came in motor cars from neighboring towns and farms. At the suggestion of Mr. McNeill shovels were distributed to several dozen volunteers and systematic digging was begun in the barn yard.

After trench had been dug along the foundation on the south side of the barn, one searcher using a long sharp pointed iron prod began punching in the ground in search of soft earth. He struck a hard object. A square space above the spot was cleared and the earth carefully removed. The pelvic bone of a man was first uncovered. The skeleton lay face down, a rounded shirt clinging to the back. The hair on the skull was well preserved.

## How One Real Estate Man Secures Prospects

Right now hundreds of people are ready and anxious to buy good property. They are desirous of getting in touch with real estate men who handle desirable properties.

Some real estate agents have already discovered the quick, easy, satisfactory way to become acquainted with house-hunting, land-hungry folks. They advertise, of course—but HOW?

Here is one man's secret: "My advertisements are carefully written to avoid that dry, dusty style which some agents use. I get BIG results from every advertisement I use, because they are written with a HUMAN appeal."

Here is the wrong way to write an ad:

SINGLE HOUSE—6 rooms and bath, \$5,600. Terms.

Here is a better way to write it:

SINGLE HOUSE, in beautiful suburb; house is vine-covered, 3 beautiful trees on lawn; 6 large rooms, hardwood floors; prettiest house on the street; built three years ago for a business man of taste and judgment, who has left to live in New York; this is a real home; if you want to see it, telephone for appointment; price is only \$6,000—a bargain in every sense of the word.

NEWS WANT ADS, properly used, will increase your sales surprisingly. Telephone and the advertising representative will call. Phone 4—The Want Ad Phone.

**THE HAM-RAMSAY CAMPAIGN**

With more than 1,300 conversions and restorations, with fully 5,000 people attending many of the services, with visitors from points as far away as McAlester, it may be said concerning the Ham-Ramsay revival that closed here Sunday evening that it was a marked success. No prior revival ever held in Ada has commanded such attendance or produced such visible results, and many of these prior revivals have been considered remarkably successful. Therefore, we feel safe in saying that this was the most successful of all the revival campaigns ever undertaken in Ada.

Ham and Ramsay are remarkable men. Their recent performance of two and three strenuous services each day, six days in the week for six weeks, in an atmosphere of intense humidity, is sufficient to win for them the admission that they are remarkable men, physically, at least. Such a test of endurance would have exhausted the average man long before this campaign ended. That they survived it without visible discomfort, is nothing short of remarkable.

Then for a speaker to handle about seventy-five subjects, handle all of them well, and never traverse the same ground the second time, establishes beyond any question the evangelist's claim to versatility. The ability to do this proves long continued study, full devotion to his vocation, and wonderful power of assimilation. Once again the old saying—such men are born and not made.

As to the methods employed by Mr. Ham, they will probably provoke discussion as long as anyone remembers the revival or has sufficient interest to discuss the matter. No man is universally popular. No methods are unanimously approved. While the world is still arguing the merits and demerits of Sam Jones, while thousands express disapproval of Billy Sunday, it is not surprising that many people in Ada and some of the best people in Ada should not indorse the methods of Evangelist Ham. But a revival meeting may be compared to a drug store. It carries in stock a great variety. You are not required to take everything in a drug store. You take what you want and leave the rest alone. The same policy should apply to a revival. Take what you consider best suited to your needs and tastes and treat the rest with as much charity as you can command.

On the whole, we believe that Ada has been wonderfully benefitted by the visit and labor of the Ham-Ramsay company. Forgiving and forgetting the things that may have offended and trying to profit by what they consider best, the people will think soberly of the lessons taught them in this very remarkable campaign.

**ARE WE LOSING THE REAL AMERICAN?**

In the latest issue of the Review of Reviews is a significant comment on the alleged decadence of the American people. No longer, says the Review, have we the breed of men that produced the conquerors of the wilderness. Our cities are over-run by the rabble of Europe preaching strange doctrines and gradually strangling the principles that made the early republic glorious. Farm lands are being abandoned, thousands of our acres are overgrown with weeds, and the sturdy men who once came from the farmstead to renovate the blood of our cities are no longer produced. Thus each year America becomes less American and more the cheap imitation of southern Europe. Our ideals are going to seed.

The trend of our rural population cityward is one of the disquieting signs of the times. It is weakening the springs of national life at the source and undermining the foundations of our nation. The cause of this migration from the farm is easily seen when we have seen the farm itself. Roads that are impassable most of the year and execrable all of the year. Schools but partly equipped for effective work and running one-third of the time. Lack of marketing system and the consequent gamble of uncertain prices. Universal tenantry with all the squalor and heartaches that tenantry entails. Here we have the cause of the cityward movement of our rural population.

Long has our government closed its eyes to existing conditions and ignored the danger seen of men. But the danger may be far greater than anyone has yet suspected. It may well be that during the next half century this country will become so Latinized and foreignized that the original American stock will disappear. But on the other hand it may be possible that America will recognize the danger and guard against its own undoing by building permanent roads throughout the country and maintaining rural schools as good as any city affords.

**SOMETHING DOING IN TEXAS**

The question asked for ten years past among those who live in Texas and all those who ever did live in Texas, "Can Bailey come back?" seems to have been fairly well answered. Bailey is back in the political struggles of Texas and bids fair to exercise a considerable influence on political developments in the state of the Lone Star.

Always opposed by the bitterest of enemies, Bailey has always been conceded to be a man of remarkable eloquence and brains. Enemies have hated the man, but hated worse to meet him in combat. On the stump of Texas he has always been a cyclone in trousers. But his fatal defect has been his inability to get along with other men. And with Bailey an opponent is invariably and always wrong.

Bailey and Cleveland differed, and Bailey today execrates Cleveland's memory. Bailey broke with Bryan once, and with Bailey the Commoner can never again be right on any question. Bailey disagreed once with Wilson, and because he differed from Wilson on one question he believes religiously that Wilson is wrong on every question.

It is really a great pity and much to be regretted that Bailey cannot admit the right of others to have an opinion. Claiming to be the embodiment and essence of Jeffersonianism, he violates one of the fundamentals of Jefferson's creed when he refuses to others the right of free thought and free speech. His ridiculous inconsistency is not apparent to himself. His whole life has been devoted to the dictum, "I am the people of Texas and wisdom will perish with me."

Easily one of the most eloquent of living Americans, admittedly one of our greatest constitutional lawyers, Bailey in spite of all his faults is a powerful character, and his re-entrance into the stormy field of Texas politics is the one great political event of the season. He may win his way back to the pre-eminence he once enjoyed or he may sink again into political oblivion, but win or lose there is going to be something doing down in Texas.

Last season the cotton mills of North Carolina paid \$11.50 more for each bale of cotton they bought than the North Carolina cotton grower received for his cotton. Of this \$11.50 per bale about \$1.50 represents freight charges, leaving \$10.00 per bale that went—somewhere. The North Carolina mills paid \$15,000,000 more for cotton than the farmers of the two Carolinas and Georgia received. In other words, the farmers of those three states could have saved \$15,000,000 by selling direct to the mills or the mills could have saved \$15,000,000 by buying direct from the farmers. Why the farmers have not perfected an organization to sell direct to the mills is a question no one has ever been able to answer.

The story that two American aviators have been seized by Mexican bandits who are holding them for \$15,000 ransom will be accepted by pacifist editors as just another attempt of the Standard Oil company to exploit the oil lands of Mexico.

The county attorneys are now engaged in a statewide crusade to enforce the law against profiteering, and there will be a statewide interest in seeing how far the county attorneys can get in enforcing a law that does not exist.

The general belief that the automobile is a modern invention is erroneous. Nearly 3,000 years ago Homer in writing the Iliad said: "Then came Achilles raging from the Ford."

Oklahoma City butchers who buy beef for 12 cents and sell it for 65 cents say that high prices are caused by the extravagance of the buyers. Oh, Clootie!

A dispatch from Paris, Texas, says that a burglar shot a policeman through the glass of the front door last week.

**SUBMARINE IS INVENTED TO SALVAGE SHIPS AND CARGO LOST DURING WAR**

An invention that is expected to reclaim from the bottom of the sea ships and cargo lost during the war was successfully demonstrated recently off Penfield Reef, near Bridgeport Harbor, Conn. Simon Lake is the inventor of what for a better name might be called a salvaging submarine. The submarine really consists of two boats, one the mother ship and the other a submarine attachment of tube which can be lowered or raised by means of powerful engines on the mother ship. At the end of the tube is a chamber in which the divers work. Mr. Lake, following the successful trial, announced that gold and other precious metals and coal sunk on barges in the sound would be salvaged. Later it is planned to lengthen the submarine tube of the vessel to 300 feet and operate in the North Sea, where many valuable cargoes were sunk by German submarines.

### MC KEOWN EXPLAINS RESTRICTIONS REMOVAL

WASHINGTON, Aug. 15, 1919.—The Ada Evening News:

The commissioner of Indian Affairs has issued an order to the Superintendent of the Five Civilized Tribes at Muskogee in the matter of removing all restrictions on Indians of the half-blood, as follows:

"In order to remove all restrictions upon all lands owned by or allotted to members of the Five Civilized Tribes, Oklahoma, of one-half Indian blood, you are requested to submit to this office at the earliest practicable date, a list of all able-bodied Indians of the Five Civilized Tribes, twenty-one years of age or over, who are not mentally deficient, together with their roll numbers. This extends the order of March 7th, 1919, to the Five Civilized Tribes and will remove all restrictions upon Indians of one-half blood or less."

It is proposed by Commissioner Sells to issue certificates of competency to the half-blood Indians set out in the order. When the certificates are issued and delivered to the Indians, then they will be free citizens and must rely upon themselves in handling their property and their restrictions on the alienation of their lands will be removed.

I shall ask the Commissioner to give notice and publicity to the issuing of the certificates so the Indians may be fully informed and all citizens who are interested may have the chance at learning the facts.

With good wishes, I am,  
Cordially and Sincerely,  
TOM D. MCKEOWN.

### Politics Hurts Fight Made on the H. C. of L.

WASHINGTON, Aug. 18.—Congress must forget partisan politics and solve the high cost of living problem at once Senator Walsh, democrat, Massachusetts, declared in an address today.

"It is the cause of all the unrest, discontent, strikes and business uncertainty in this country today," Senator Walsh said. "It is doing more than that—it is causing distrust of the government itself."

Although President Wilson called congress' attention to the situation ten days ago virtually nothing has been done, Senator Walsh said.

Let a Want Ad get it for you.

## Take A Peep At The Newest Fall Styles

THE newest suits and coats have just arrived and bring with them the most authentic news about the approved silhouette, favored materials and popular trimmings.

Both coats and suits insist on the straight line. Coats have rebelled against the old idea that to be warm they must be bulky. This year coats of warm soft fabrics fall straight from shoulder to hem.

Wooltex suits are divided into four distinct and individual types with many variations of novel embroideries, odd stitchery and clever paneling. There's the severe "Tailleur," the Blouse, the trimmed Tailor-Made and the Country Suit; which means that you can find the newest style tendencies interpreted in your own type.

We recommend WOOLTEX, because the WOOLTEX label promises superior fabrics so carefully tailored that the correct lines remain throughout the season.

Materials Are Serge, Tweeds, Velour and Tinseltones

PRICES RANGE FROM

**\$37.50 to \$75.00**

J. B. Gilbreath returned yesterday from a week's visit with his parents at Clinton, Mo.

Miss Lettie Rock returned this morning from a two weeks visit to friends at Dorchester, Texas.

Mrs. Jno. E. Turner of Holdenville is spending the day in Ada with her sister, Mrs. Luther Harrison.

Mr. and Mrs. J. J. Marshall and baby, Josephine, arrived this morning for a visit to Mr. and Mrs. Arthur Marshall.

Mr. Elmore, who resides on East Fifth and Beard street lost a fine cow last night when she was struck and killed by lightning.

Mr. and Mrs. J. H. McMullen of Gorman, Tex., who have been the guests of Mrs. B. Brady, 211 South Stockton, left this morning for a visit to relatives at Holdenville before returning to their home in Texas.

Mrs. R. E. L. Ford has as her guests, her father, F. M. Claybrook, of Allen, who is an old Confederate soldier and who expects to attend the reunion at this place; and her sister, Mrs. B. F. Witt and husband of Gainesville, Tex., who arrived this morning.

L. W. Scroggs, who will be superintendent of schools at Stonewall next term, was transacting business at the office of the county superintendent today. Mr. Scroggs was superintendent at Yale last year and is a brother of Dr. J. W. Scroggs of Oklahoma University.

Miss Mollye Baker returned last night from a three weeks visit to her mother and other relatives at Memphis, Tenn. She also visited at several points in Mississippi, and stopped at Dallas, McKinney and other places in Texas on her way there for a short visit to friends. She has resumed her work at the postoffice today.

Mrs. Allie Johnson and daughter, Pauline, left this afternoon for a visit to Mr. Johnson's mother, Mrs. R. H. Simmerson at Sulphur, Okla.

Mrs. John Agnew of the News office is taking a week off. Mrs. Agnew said vacation meant rest to her, so she is spending the time at home.

Mr. and Mrs. L. C. Spicer returned to their home at Shawnee yesterday after a visit to their mother, Mrs. C. H. McCurry, East Fourteenth and Mississippi.

Mrs. F. M. Bayless of Stratford, passed through the city today en route to Paris, Tex., for a visit to her father, and was the guest of Dr. and Mrs. M. M. Webster while in the city.

Mrs. W. J. Staten of Dallas, Tex., arrived this afternoon for a few days' visit to her daughter, Mrs. M. C. Wilson, 730 East Main, after which she will leave for an extended visit at Denver, Colorado.

Mr. and Mrs. Frank Withers left yesterday for Los Angeles, Calif., where they will sojourn several weeks for the benefit of their health and for the purpose of seeking a prospective location.

Ed Fry, assistant warden of the state penitentiary and Joe Hyman, were overland passengers thru the city this morning, on their way to Colorado where they will join their families for a few weeks' sojourn.

C. F. Cooper, who has been visiting his sons, C. L. and W. F. Cooper, for several weeks, left today for a visit to his daughter, Mrs. J. F. you. The public is cordially invited to attend.

CLYDE C. MORRIS, Pastor.

First Baptist Church Tonight.

There will be a large number of people baptized tonight at the First Baptist Church at 8:30. The pastor will speak in the main auditorium on the subject of baptism and the doors of the church will be opened for the reception of members. So if you are a Christian and have never been baptized, it will be a delight for us to receive you at that time and baptize you. Or if you wish to come in by letter or restoration, come and we will receive you.

At the same hour the members of the Second Baptist Church will be at the First Baptist Church to receive members into their church, or if you desire to become a member of the Second Church, come tonight and be received and the pastor of the First Baptist Church will baptize you.

A wholesome picture, full of human interest and virility. Ostracised from his own, he seeks solace with the village derelicts.

ATTENTION—Members of the First Presbyterian Church. Prayer meeting Wednesday evening at 8:30. Every member is urged to be present.

Prof. Hugh Norris, manual training teacher for the Normal School, is in the city looking for a location for the coming year. He is finding it difficult to get a place as rent houses are very scarce. Mr. Norris wants to rent for several months before he decides to buy.

J. W. Burrous, manager of the Dunlap store at Shawnee, and who came down Friday to open the Dunlap store at this place, returned yesterday with his wife and little daughter to Shawnee. W. C. Cory of Muskogee is the manager left in charge of the local store.

Mrs. Russell and her daughter, Miss Mollye Russell returned today from Youngstown, Ohio, where Mrs. Russell has been spending the summer with her daughter, Mrs. Widmer, and where Miss Mollye has been visiting since she finished a summer course at the Chicago University.

Rev. C. B. James, former pastor of the Christian church at this place, who is now at Chickasha, was in town shaking hands with his many friends. Rev. James drove down from Roff today where he delivered a sermon last night, enroute to Sulphur, where he and his family are spending their vacation.

Mr. and Mrs. J. W. Zimmerman and baby, of Coleman, Okla., arrived yesterday for a visit to Mrs. Zimmerman's parents, Mr. and Mrs. J. M. Martin, 1031 East Eighth. Mrs. Zimmerman is better known in Ada as Miss Clara Martin. Dr. and Mrs. S. N. Hedrick and little son, S. N. Jr., of Muskogee, are also the guests of Mr. and Mrs. Martin.

Dr. and Mrs. L. M. Overton and Mrs. Cartwright of Fitzhugh were in the city yesterday afternoon looking after business interests and shopping. Dr. Overton says they are going to have a good road between here and Fitzhugh before long. He says they have already put in three new culverts and still have several more to place, which will improve the roads between Lawrence and Fitzhugh considerably.

## FRIDAY WILL BE A CLEAN-UP DAY IN ADA

### Ada Playhouses

**At the American.**  
Today comes beautiful Mary McLaren in a story admirably suited to her very personality.

The story is by Sinclair Lewis, famed for his giggling human interest stories.

It is a story of a country village, it's so called aristocracy, it's swollen and bitter class distinctions. Then there is Little Mickey Moore, with his flaxen curls, probably the most lover of all. This picture will certainly appeal to the ladies and children.

**At the Liberty.**  
The Ladies Auxiliary will have charge of the work of informing every citizen of the campaign and will probably make a house-to-house canvass to impress upon everyone the necessity of a clean-up at this time.

Inasmuch as it is now predicted that another epidemic of influenza will visit the country next winter if it becomes imperative that every precaution be taken to guard against another epidemic such as visited Ada last winter. Then the recent rains mean a quick invasion of mosquitoes with their accompaniment of malaria unless the weeds and other breeding places of the pests be removed. It is vitally important that citizens employ every means to clean-up the city.

Mayor Kitchens states that the wagons will start Friday morning at 8 o'clock and he urges everyone to have his trash ready for removal.

**Adultery Case Dismissed.**

When the case of the State vs. Homer Smith and Mrs. Jacobs, charged with open and notorious adultery, was called in Judge Brown's court this morning, it was found that two very material state witnesses were absent. Inasmuch as it would not have been possible to secure a conviction without the testimony of the two absent witnesses the case against Mrs. Jacobs was dismissed without prejudice, subject to a new filing. Homer Smith was not present in court and it is said that the authorities do not know where he is.

Smith is a married man, whose wife lives in Ada, while Mrs. Jacobs is a widow with three children. The complaint alleges that the two defendants beginning on or about July 14, lived in open and notorious adultery for about one month. The complaint against them was signed by M. G. Snodgrass. The prosecuting

witnesses in the case subpoenaed to appear and give testimony were H. G. Snodgrass, Ben Murphy, Bill Poindexter, Mrs. Farris, F. A. Word, Mr. Parker, Allen George and Mrs. Ruby Smith, the wife of Homer Smith. Mrs. Jacobs was represented by Jno. P. Crawford.

**Marriage License.**

Only one license was issued yesterday by the court clerk to those contemplating matrimony. This was issued to Oscie Collins, aged 27, and Mary Cravatt, aged 40. Both parties live at Pontotoc.

Mrs. Lulu Hays and boys left yesterday for a visit to friends at Nashville, Ark.

**METHODIST PRAYER MEETING**  
Wallace M. Crutchfield, Pastor.

Let us gather together Wednesday evening at 8:30 for a service of thanksgiving and prayer. Both old and new members will be interested. Official members and others will be interested. Let us show our devotion to God by meeting in his house where prayer is want to be made Wednesday evening at eight-thirty.

**First Baptist Church Tonight.**  
There will be a large number of people baptized tonight at the First Baptist Church at 8:30. The pastor will speak in the main auditorium on the subject of baptism and the doors of the church will be opened for the reception of members. So if you are a Christian and have never been baptized, it will be a delight for us to receive you at that time and baptize you. Or if you wish to come in by letter or restoration, come and we will receive you.

At the same hour the members of the Second Baptist Church will be at the First Baptist Church to receive members into their church, or if you desire to become a member of the Second Church, come tonight and be received and the pastor of the First Baptist Church will baptize you.

The public is cordially invited to attend.

CLYDE C. MORRIS, Pastor.

**ATTENTION—Members of the First Presbyterian Church.** Prayer meeting Wednesday evening at 8:30. Every member is urged to be present.

**Rains Bros. GROCERY**

### Specials for This Week Only

**Sheer and Dainty Lingerie**

Lingerie seems to have reached the crest of the wave in sheerness and daintiness; one wonders what will happen next. Its loveliness is not born to waste its flesh-pink blush unseen, but quite the contrary. Camisoles and chemise, combinations and slips are all visible through sheer blouses that depend upon them for added charm. The blouse often serves merely "to veil the rose's bloom;" the camisole or other underbodice providing the most interesting contribution to the costume. Figured georgette, crepe de chine, lawns, laces and nets all play their exquisite parts in making up these undies. The finest batiste also holds the allegiance of gentlewomen who never waver in their loyalty to this soft fabric and the hand embroidery that it makes worth while.

An envelop chemise and a combination, both of American design and manufacture, are shown in the picture above. Flesh pink crepe de chine makes the practical chemise shown at the left, trimmed with insertion and edging of the familiar val lace that women love. A small yoke of Irish lace is set in at the front. Pink satin straps with bows suspend the chemise from the shoulders and the same ribbon makes a dignified bow with hanging loops and ends to embellish the front. This garment is delightfully cool for warm weather when the lightest union suit proves burdensome. A short undervest and corset are worn under it.

Just because they are so pretty and for no other reason, the pink silk garters, with wide lace frills, flaunt their charm in company with this sensible chemise. There is a fad for such charming little frivolities and women delight to present each other with

them. Boudoir slippers of ribbon and lace match up with these dainty belongings.

The combination at the right is made of figured georgette. The body is shirred on two cords and edged with full ruffl of plain georgette. Another ruffl froths about the waistline where the knickers are set on and ribbon forms the suspenders over the shoulders. Finally a butterfly of plain georgette is the last beguiling touch that is sure to tempt feminine eyes into looking too long at a garment that is bound to prove irresistible. While georgette has proved much less fragile than it looks, underwear made of it is a luxury that the average woman will hardly indulge in. But crepe de chine has wearing qualities that make it really economical.

*Julia Bottomly*

**Georgette Coats.**

Georgette evening coats or afternoon coats are not unusual. And really there is enough warmth in the georgette coat, light as it is, to protect the wearer from discomfort. Many of the best of these coats are trimmed with narrow bands of fur. The fur is not wide enough to seem bulky, but it is in charming contrast to the transparent material of the coats.

**To Stop Falling Hair.**

When the hair falls out in spots apply the following: Diluted rose water, 180 grams; aromatic vinegar, twenty grams; pure glycerin, ten grams; tincture of nux vomica, fifteen grams; tincture of cantharides, ten grams. Rub gently into the scalp.

**SALVATION ARMY ON THE RIO GRANDE****SOCIALISTS SEND OUT CALL FOR NEW PARTY**

By News' Special Service

NEW YORK, Aug. 19.—"Left Wing" socialists has issued a call to radicals throughout the country to attend a convention in Chicago on September 1 to organize the "communist party of America" it was learned here today when a copy of the call was made public by the joint legislative committee and anarchistic activities in this state. The left wingers declare their intention of severing all connection with socialism on the grounds that the word has come to signify "merely welfare and uplift."

The proposed party platform which will be submitted to the committee demands "dictatorship of the proletariat, both industrial and agricultural and nationalization of great business enterprises and financial trusts."

International alliance with the bolsheviks of Russia and the Spartacists of Germany also is advocated and the creation of workmen's councils "to act in suppression of fraudulent bourgeois, democracy, the finance oligarchy and capitalist bourgeoisie."

**Important Notice.**  
This is to notify the public that no one has any authority to make bills against the Chamber of Commerce for the Confederate Veterans Reunion without a written order from O. N. Walker. No person has any right to solicit funds for the occasion except a committee appointed by the Chamber of Commerce, the committee being headed by Mrs. R. F. King.  
O. N. WALKER, Secy.

Good appetite, vigor and cheerful spirits follow the use of Prickly Ash Bitters. It purifies the stomach, liver and bowels and makes life worth living. Price \$1.25 per bottle.—Gwin & Mays' Drug Co., Special Agents. (adv)

tion. The other posts already have recreational buildings.

A set of athletic equipment will be sent down to Marfa immediately to be sent from there to whatever post is most in need of it. Now that there is no longer a need for the Salvation Army hut at Camp Bowie, in Fort Worth, all the equipment of this hut will be sent down to the border. This equipment consists of rockers, tables, magazines and books.

Col. Wood had two conferences with Col. G. T. Langhorn of the Eighth Cavalry who is in charge of the Big Bend district, with headquarters at Marfa. Col. Langhorn offered cooperation in every way possible in carrying out the program outlined by Col. Wood and thanked him for the work that has already been accomplished for these soldiers by the Salvation Army.

Two shipments of rocking chairs have been sent to the border and been distributed to the following posts: Terlingua, Indio, LaJitas, Santa Helena, Ruidosa, Polvo, Hesters Ranch, Evetts Ranch and Glen Springs. These easy chairs were thoroughly appreciated by the men. Lieut. M. F. Sullivan of the 8th Cavalry writes, "Although a Troop of Cavalry doing border duty has very little time in which to rest, when that time for relaxation does come, 'tis certainly a 'grand and glorious feeling' to find a comfortable rocking chair waiting for you in which to rest your weary body and dream of the time when you will be in God's country once more. It gives the lady a touch of the home atmosphere which is a great thing to help keep up the morale of any organization as far as we are from civilization".

Col. Wood visited Terlingua, La Jitas, and St. Helena on this trip. He was accompanied by Chaplain John MacWilliams and Ensign Roy Malott.

**SALVATION ARMY SPENDS \$40,000 IN TELEGRAMS**

The Salvation Army has spent more than \$40,000, announcing to their families, the safe arrival of soldiers from France according to an announcement just made by the Salvation National Headquarters.

**Japan is Nation U. S. Must Fear Editor Claims**

By News' Special Service

LOS ANGELES, Aug. 18.—Japan, both in her industries and in her commerce, is the competitor most to be feared by the United States on the Pacific. Although California has an alien land law, Japanese control more than 80 percent of the vegetable and berry business and more than 50 per cent of the grape and fruit business of the state.

These are the statements made in the Grocers Journal, official publication of the Southern California Retail Grocers' Association, in an article just made public. This article bares a galaxy of carefully gathered facts regarding the Japanese menace, not only to California but to American industries and labor.

The article was written by William Schaeffle, secretary of the association.

That Japanese competition, both here and in the battle for commercial supremacy on the Pacific, threatens to slaughter American standards of wages and undermine American industries, is the declaration of Secretary Schaeffle. He concludes with the declaration "There is just one thing that will save the day, that is the restoration of the protective tariff. American labor is interested equally with American capital."

**OKLAHOMA LEGISLATURE MAY CONVENE IN SPECIAL SESSION**

By News' Special Service

OKLAHOMA CITY, Aug. 17.—W. W. Pryor, member of the lower house of the Legislature from Seminole County, believes the Legislature should be called in special session and repeal all the appropriations except those of maintenance of necessary state institutions. He says this in a letter to the Governor or responding to a query from the Governor as to a deficiency appropriation of \$15,000 for dormitories at the school for the blind at Muskogee. The Governor wrote to all members of the Legislature asking if they thought he should allow it. From thirty answers so far received only three oppose the deficiency. Representative Pryor not only opposed it, but believed it was repealed.

The new eye problem given by

**COON**

Mildest.

Mildew usually appears on the fibers of cotton and linen; it takes the form of small round dark spots; in reality it is a vegetable growth, or form of fungus, which develops on the fibers of the material. Its appearance is due to dampness, and reflects discredit on the work of the housekeeper, as the clothes must either have been put away damp or kept in a damp cupboard.

Mildew is difficult to remove. One of the simplest remedies is to moisten the stained fabric, rub it thickly with soft soap and sprinkle it with common salt. Place the material on the grass in the sunshine and keep it moist. Renew the treatment each day until the stain disappears.

A quicker method, and a surer one, is to keep the stained part in white material in a solution of bleaching liquor. To prepare the bleaching liquor, put half a pound of chlorinated lime into a basin and pour half a gallon of boiling water over it; add two tablespoonsfuls of washing soda, and stir to break up all the lumps, and to enable the water to extract all the chlorine. Strain carefully to remove all the powder and to make the liquid clear. Bottle and keep ready for use.

This liquor is used chiefly for the removal of obstinate organic stains, such as dyes, fruit, wine and old tea or

coffee stains. But it should only be used for fabrics made from vegetable fibers, such as linen and cotton, as its application to wool and silk proves fatal to the fibers. The solution should never be stronger than one part of the liquor to four parts of hot water.

## Tonic for the Bath.

A bath much favored by the Kneipists, along with the bare-feet habit, is formed from a solution of pine needles and pine cones. Cover with cold water about a pound of fresh pine needles and pine cones, broken in small pieces. Roll for half an hour, strain and add the solution to the bath. If you do not want to use the entire amount at once it can be bottled and kept for future occasions. This has a tonic effect both on the nerves and the skin. It can be used on alternate days with a bath of sea salt.

## Fresh Gloves.

Gloves should be kept as clean as possible, and of course should never reveal a slit. Silk the same color should be used to keep gloves in repair. For general street wear dark or medium toned gloves are to be preferred, unless one can afford white kid gloves of immaculate freshness.

## The State Press

Chickasha Star: Bolshevism is merely the itch with whiskers on it.

Miami News: Great lawyers declare that the kaiser could not be legally tried. Well, poison gas was tried illegally.

Chickasha Star: Perhaps a permanent improvement in service could be made by having the postmaster distribute food all the time and let the corner grocery attend to our mail.

Muskogee Times-Democrat: Attorney General Palmer says there is no law by which prices can be lowered directly. What about that one to the general effect that thou shalt not steal?

Chickasha Star: It takes two girls nowadays to get all the tennis equipment over to the courts for the twilight game—one to carry the rackets and the other to carry the ukulele.

Pittsburg County Guardian: If a lot of people who are living about 300 per cent ahead of their income in order to keep up social and other appearances would cut out the fol-de-rol and go to paying a lot of honest debts, the high cost of living would get another hard jolt, both for the payee and the payer.

Ardmore: Luther Harrison has consolidated his Ada Star-Democrat, weekly, with the Ada Evening News and gone with the daily as associate editor. Marvin Brown and Luther Harrison are a hustling editorial team and should be able between them to change the mail address of their town from Ada, Okla., to Ada, D. C. Ardmore is more than willing to let Ada have the national capital, including the temperature that goes with it.

Idabel Gazette: There was evidence here Wednesday that somebody from the hill country had come in with a supply of the two-six-bits brew that makes those who partake of it go a "wobble" that would put to shame the most blasphemous hall habitue on New York's east side. And there was a whoop to it, too. One of those old time, hair-raising whoops we used to hear in good old Indian Territory days.

Allen Hustler: Luther Harrison, editor of the Ada Star-Democrat, has associated himself with Marvin Brown in the publication of the Ada Evening News, and his name appeared in Tuesday's issue of the News as associate editor.

This makes a strong combination and the people of Ada and Pontotoc county can rest assured that they will have a publication that will rank second to none in the southwest. Ada business men should give the News their support and help to make it what the publishers desire, the best daily paper in the state.

Durant Democrat: The Ada Weekly News and the Ada Star-Democrat have been consolidated, the News taking over the plant of the Star-Democrat. Senator Luther Harrison, one of the best known writers of the southwest, who has been editor of the Star-Democrat, has gone to the Daily and Weekly News. Consolidations are now in order, on account of the high cost of everything, and newspapers, to survive, must concur in this manner as in others. It was a good move not only for the papers, but for the business men of the town. Too many papers are just as harmful to a town as too few.

Sallow complexion comes from bilious impurities in the blood and the fault lies with the liver and bowels—they are torpid. The medicine that gives results in such cases is HERBINE. It is a fine liver stimulant and bowel regulator. Sold by Bart Smith, Adv.

Germs are plentiful in the summer air, we breathe them every minute. In health they do no harm, but to those who have a bad liver, disordered stomach or constipated bowels they mean a spell of sickness. The best way to insure your health is to take PRICKLY ASH BITTERS. It purifies and strengthens the system. Price \$1.25 per bottle. Gwin & Mays Drug Co., Special Agents. (adv.)

## BANDITRY, ISSUE WITH GOVERNORS

DEMAND SHOULD BE MADE ON MEXICO, BURNQUIST SAYS, AT SALT LAKE CITY.

By News' Special Service

SALT LAKE CITY, Utah, Aug. 18.—The capture of two American army aviators by Mexican bandits and their detention somewhere in Mexico for \$15,000 ransom will be made an issue before the conference of governors here, according to Major H. C. Garis, aide to Governor J. A. A. Burnquist of Minnesota. One of the aviators held by the Mexicans is Harold G. Peterson of Hutchinson, Minn., Governor Burnquist today telegraphed Secretary of State Lansing asking for immediate action and information.

In just what form it will be made an issue at the conference is not yet known, but Major Garis said that Governor Burnquist would immediately confer with executives of the border states—New Mexico and Arizona—who are in this city.

Governor Burnquist also telegraphed Governor Stevens of California asking for co-operation in an effort to get immediate action, since the other aviator held by the bandits, Paul H. Davis, is a citizen of California.

Governor Burnquist late this afternoon gave out the following statement:

"The federal government should at once demand the immediate release of the American officers now held for ransom by bandits in Mexico. If they are not released it is apparent that the Mexican government is unable to cope with the situation and the United States ought, with other countries, or if necessary, alone, to put into Mexico an army of occupation to restore order and establish stable popular government. Our nation owes it to every one of her citizens to defend him and his rights, wherever he may be."

With a large number of governors due to arrive this afternoon and more than a half dozen already here, executives of more than a score of states will be ready for the formal opening of their eleventh annual conference tomorrow morning. The official welcome to the governors will be tendered them this evening at the tabernacle.

CARDINAL GIBBONS ASKS PUBLIC TO ASSIST S. A.

By News' Special Service

ARDMORE, Okla., Aug. 18.—William Ferrell, one of the best known drilling contractors who operated in the southern Oklahoma and north Texas oil fields, died Sunday morning at Columbia, Mo., from injuries received when an auto in which he was riding overturned.

Mrs. J. C. Atchison and daughter, Hazel Adell, of Sherman, arrived this morning for a visit to the former's uncle, George Gyder and family, south of the city.

Cemetery Association. The Cemetery Association will meet Wednesday afternoon at 4 o'clock at Supt. Hickman's office.

Mrs. J. C. Atchison and daughter, Hazel Adell, of Sherman, arrived this morning for a visit to the former's uncle, George Gyder and family, south of the city.

## FINAL CAMPAIGN FOR S. A. HOME SERVICE

Plans for final whirlwind Salvation Army Home Service campaign throughout the State have just been announced by Lieut. Col. George Wood, who is in charge of Salvation Army activities in the Southwest. These campaigns will be put on as soon as possible in all communities which have not already completed their campaigns. It is hoped to complete all campaigns by the end of September.

In a statement just issued Commander Evangeline Booth, of the Salvation Army in the United States calls attention to the after-the-war program of the Army and appeals for support from all good citizens who are interested in the welfare of their communities. She says:

"The Salvation Army emerges from the great war—as years ago the organization came out of the Boer war—the loyal and devoted friend of the fighting men. That was our first experience on a battlefield. Today khaki-clad men all over this country know they can count on us in hours of great human need. I think the whole world understands this now."

"Important changes are coming to the Salvation Army and they will be changes for the better. The passing of the old-fashioned, casual method of soliciting money on the street corners and the substitution of more modern ways of collecting funds is a good innovation. The broadening and deepening of our work is good. The future, however, will see no changes in the mighty foundation rocks upon which the movement stands.

"No different methods of gaining financial support will ever pull us away from the poor, for we are of the poor. Our calling and our service is that of the poor for the poor."

"And this is the past and all of the future as far as the great underlying principles of the Salvation Army are concerned. Always we have worked with a 'three o'clock in the morning' courage. Bonaparte once called it the way to test courage. To us it has meant simply, honest service to men and women twenty-four hours of every day.

"Destitution, neglect, disappointment, naivety, these are the things that take high courage to meet. It is right here and now that men and women need help. This is the 'zero hour' of human agony, that God has called upon us to mitigate and relieve. By His help, in His name and for His sake, we accept the great responsibility."

"In planning the program of work for the year ahead expansion lies in the service we offer rather than in the machinery of the organization itself. Rendering an account of one's stewardship, we have only one thought in mind—"the man who is down—but never out." After all he is the one who counts first.

"In answering the appeal of the entire country the Salvation Army acknowledges a new-old responsibility. If in the next few days you give of your money as your contribution to a great national service, spend yourself with it, for 'the gift without the giver is bare.' Do not merely contribute your money. If you really understand the far-reaching scope of the army of mercy you will feel that you too have a vital part in helping the man who is down. It is your responsibility as well as ours. We need you as well as your sons. Will you make the sacrifice?"

Christian Church Baptizing.

Nine persons were baptized last night at the First Christian church. After showing that baptism is a condition of pardon, the minister showed the similarity between the burial of Jesus and the burial in water, i.e. Before Jesus was buried he died on the cross. Before a person can be scripturally baptized he must die to sin. 2. When Jesus was buried he was hidden away from the world. When a person is baptized he is hidden away from the world. 3. Jesus was laid prostrate in the grave. The candidate is laid prostrate in the watery grave.

4. Jesus was laid with his face upward toward God. The candidate is laid with his face upward toward God. 5. Jesus was alone in that rock-hewn grave. The candidate is alone in the watery grave. 6. Yet not alone in this grave—God is with him. 7. From that grave Jesus was raised. From this grave the candidate is raised. Jesus rose from that grave never to die again. The candidate rises from this grave never to die again if he is faithful.

The following persons were baptized:

Rosa Jackson,  
Bernice Borders,  
Etta Mae Qualls,  
Myrtle Qualls,  
Opal Qualls,  
C. E. Qualls,  
Master Hughley Laxton,  
Jno. Henry Taylor,  
Fred Clinkenbeard.

There are quite a number yet to be baptized, and some of them may be baptized Wednesday evening following the prayer meeting.

C. V. DUNN, Pastor.

## DANCING NYMPHS STARTLE DENIZENS OF WOODS AT MT. KISCO, NEW YORK

Dancing elves snapped by a photographer they never dreamed was around as they were making merry in a wood-surrounded glade near Mt. Kisco, New York. These dainty girls, in their filmy robes of butterfly texture, are pupils of Helen Moeller. The music for the dance was furnished by birds and the rustle of the wind through the trees.

## Ferris Informs Congress That Folks Are Tired

(Continued from Page One.)

legislation now on the calendar is 'chicken feed' and does not deserve the attention of congress.

"The American people, who are daily being robbed by profiteers and food gamblers, will be slow to agree with this logic. The railroad problem, intricate though it be, deserves attention and attention now. The development of the west by appropriate legislation for the development of oil, coal and other natural resources are all held in abeyance. Unless the Republican leaders in congress are totally wanting in initiative, and are totally without ability to assemble themselves and act, substantial and immediate steps should be taken for the solution of these problems.

"The Republican congress has been in session nearly three months. All it has been able to do is to re-enact the bills the democrats formulated in the last congress and which were killed by the republican filibuster in the senate. They have initiated nothing new. They have made no substantial effort to achieve the things for which the American people are clamoring. They have been without vision and without ability to cope with the problems that come up. The republicans have been entrusted with power. It is their move."

Christian Church Baptizing.

Nine persons were baptized last night at the First Christian church. After showing that baptism is a condition of pardon, the minister showed the similarity between the burial of Jesus and the burial in water, i.e. Before Jesus was buried he died on the cross. Before a person can be scripturally baptized he must die to sin.

2. When Jesus was buried he was hidden away from the world. When a person is baptized he is hidden away from the world. 3. Jesus was laid prostrate in the grave. The candidate is laid prostrate in the watery grave.

4. Jesus was laid with his face upward toward God. The candidate is laid with his face upward toward God.

## DAYLIGHT REPEAL BILL PASSES OVER VETO.

By the Associated Press

WASHINGTON, Aug. 19.—The bill repealing the daylight saving law passed today in the house over the president's veto by a vote of two hundred and twenty three to one hundred and one, or seven over the necessary two thirds majority. The repeal now goes to the senate where its supporters claim victory.

homes to take care of the Confederate veterans.

Something like 200 or 250 old soldiers besides their guests, are expected to attend this reunion and it will be one of the most important events that has been on Ada's social calendar for some time. A call is being made to every home to make reservations to provide ample comfort for these Confederates.

Every home in Ada should not only consider it their duty to take care of at least one of these soldiers, but they should consider it their privilege to have them in their home. Three years ago when Ada entertained the U. C. V. the only complaint that was made was the lack of conveyances, and every man or woman in Ada who has a car is urged to appoint themselves as a committee of one on the entertaining committee to see that these veterans have conveyances to any place that they may desire to go.

The work that the Auxiliary to the C. of C. is doing, in several lines, is certainly very beneficial to the city of Ada. The U. C. V. could not have been taken care of had it not been for the efforts put forth on the part of this Auxiliary.

## THIS MAN INTENDS TO KEEP IT IN THE HOUSE

"In May or June, 1913, I sent to you and got four bottles which were worth many dollars to me. They enabled me to go to work again. I had lost forty pounds, but these 4 bottles of May's Wonderful Remedy for stomach trouble gained back all I had lost and I feel like a new man since. I shall keep it in the house all the time." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.
